

ANTI AGE * AND ANTI-SPOT ** NIGHT CREAM

DESCRIPTION

A rich cream that enhances the effects of the day treatment. Specific for a targeted action during the night, when the skin is totally protected against external attacks.

ACTION

A rich cream with an intensive unifying and brightening action, specific for a targeted treatment during the night, while the skin is in its recovery phase. It contains the exclusive ADM™ complex, obtained from azelaic acid, and microencapsulated liquorice extract, capable of reducing skin hyperpigmentation which is the cause of spots and dyschromias. Rich in Vitamin C, with an antioxidant and anti-age*action.

ACTIVE INGREDIENTS

| Active ingredients | Action |
|-------------------------------------|---|
| ADM™ complex | Whitening – Sebo-normalizing |
| Microencapsulated liquorice extract | Whitening – Unifying |
| Vitamin C derivative | Antioxidant – Promotes collagen synthesis |
| Sugary agent | Moisturizing |
| Shea butter | Emollient - Protective |

SUGGESTIONS FOR USE

Apply to face every night, massaging gently.
Use after the Unifying Serum and in synergy with the Day cream.
